

STANDING FOR PUBLIC EDUCATION

We, the _____ Branch of the PPTA, are opposed to any move towards charter status.

We believe that, not only has the case for the educational benefits of charter schools been disproven, but that charter schools represent a threat to the learning conditions of our students, as well as the working conditions of our teachers.

Charter schools divert funds away from frontline teaching and the democratic accountability of our schools. We request that the Board of Trustees provides a firm commitment they will not seek to become a charter school.

Resolution passed by _____ branch of the Post-Primary Teachers Association (PPTA).

Resolution passed on _____
