THE PETITION!*

Community 'Out-of-Hours Music & Arts' (OOHMA) programmes offer affordable access to professional tuition for children in years 1-8.

Most of these programmes we know as Saturday morning music classes, but the programmes can also happen during the week and cover performing and visual arts classes as well.

The Ministry of Education provides funding for Out-of-Hours Music & Arts. In recent years, the overall number of available funded hours has not been enough to meet community need.

Without increased funding, some of these programmes will face cuts and our kids will miss out!

Sign the petition **now** to show your support for OOHMA and to call for increased funding so these programmes can continue to serve our communities.
