

GROUP  
WORKSHOPS  
FOR WOMEN TO  
CREATE CHANGE

# JOIN US.

**Take time to add your voice to a conversation about gender equality & women's rights at work.**

By getting together with your sisters you are building a growing movement of women who want to make work safer and better for women. The purpose is to:

- help develop an agenda for change at work
- inform campaigns and policy for our movement, so we're taking action on the issues that matter.
