

Area School and Composite teachers.

PPTA
Te Wehengarua

A conversation about the Draft Mathematics and Statistics Curriculum for Years 0-8

28 August, 2024

Dr. Julie Whyte

Dr. Adele Scott and Lauren
Hourigan: Advisory Officers,
PPTA Te Wehengarua

Karakia

E te whānau o PPTA Te Wehengarua
Whaia te mātauranga kia mārama
Kia whai take ngā mahi katoa

Tū maia, Tū kaha
Aroha atu, aroha mai

Tātou i a tātou katoa

*For this gathering of PPTA Te Wehengarua
Seek knowledge for understanding
Have purpose in all that you do
Stand tall, be strong
Let us show respect
For each other*

The next 50 minutes...

- **Introductions: Adele, Lauren, Julie**
- **Introduce yourself in the chat with**
 - your name, school
 - year levels of maths that you teach
 - if you teach pāngaru in a kura
- **Scene Setting - Why are we here?**
- **What we've heard from the Ministry**
- **Let's hear from you**

Scene setting - Why are we here?

To check in with our members in Area and Composite Schools to hear

- your initial thoughts about the draft Mathematics and Statistics curriculum
- what questions you might have about the draft curriculum
- what support from the Ministry would help your understanding and preparation in maths & stats for T1 2025 and how might that best be delivered
- how you are getting on generally and how PPTA Te Wehengarua can advocate for your needs.

What we've heard from the Ministry:

Short overview of the Curriculum Refresh / Common Practice Model work

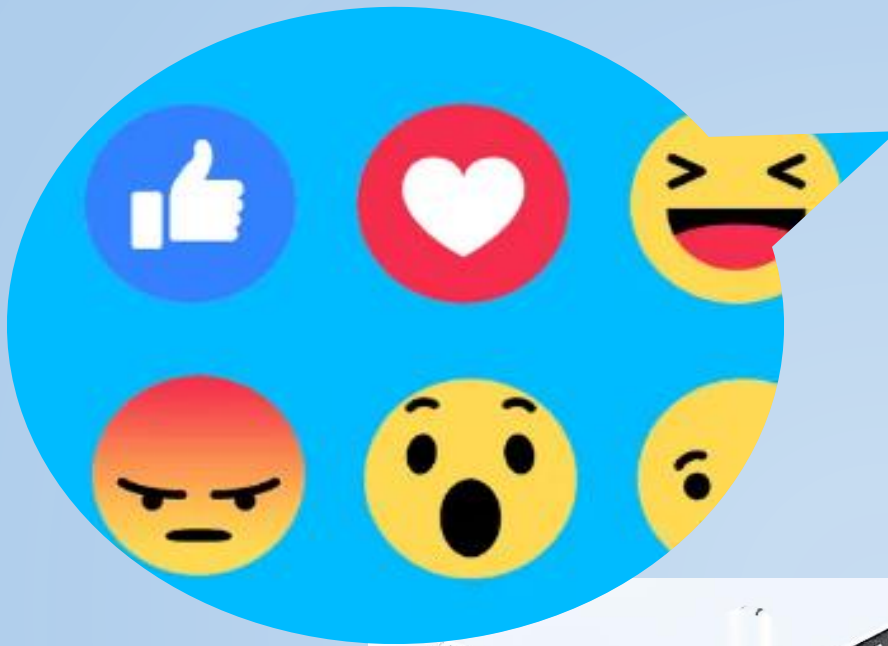

- Curriculum Refresh and Te Mātaiaho
Ministerial Curriculum Advisory Group (CAG) determined that
 - the national curriculum needed to be strengthened
 - was so flexible that was contributing to variable outcomes
 - burden on teachers – expecting teachers to be curriculum designers
 - Ministry needed to provide a better job to teachers – to help reduce the
 - variance – not leaving essential learning to chance
- Literacy and numeracy results released, including NCEA co-requisite results from pilots
- Common Practice Model -ticking along - put on hold 2023
- Minister focussed on equity and excellence - and supporting teachers
- The draft maths curriculum brings Te Mātaiaho, Curriculum and CPM together (recommendation to Minister, June 2024)

What we've heard from the Ministry:

Consultation on the draft mathematics and statistics curriculum - year 0-8 curriculum and supports for teachers

- finalised this year and required for use 2025
- opportunities for changes to be made
- not releasing all Learning Areas together
- changes that need to be made will be made - needs to become more of a living document – more regular cycles of refresh and refinement
- will be 're-gazetted' end of 2025 (after any changes made)
- entire maths LA 0-13 will not be a requirement until 2026
- **Make it Count Action Plan** -Want teachers to feel competent and confident to deliver the curriculum – acknowledging workload and cognitive load
 - PLD over 18mths - 2 years - as and when ready e.g. Large curriculum days /kahui ako/ webinars .clusters with call back days -teams of facilitators - modelling concepts and methods of practice
 - Support teachers through a CHOICE of resources

Let's hear from you
